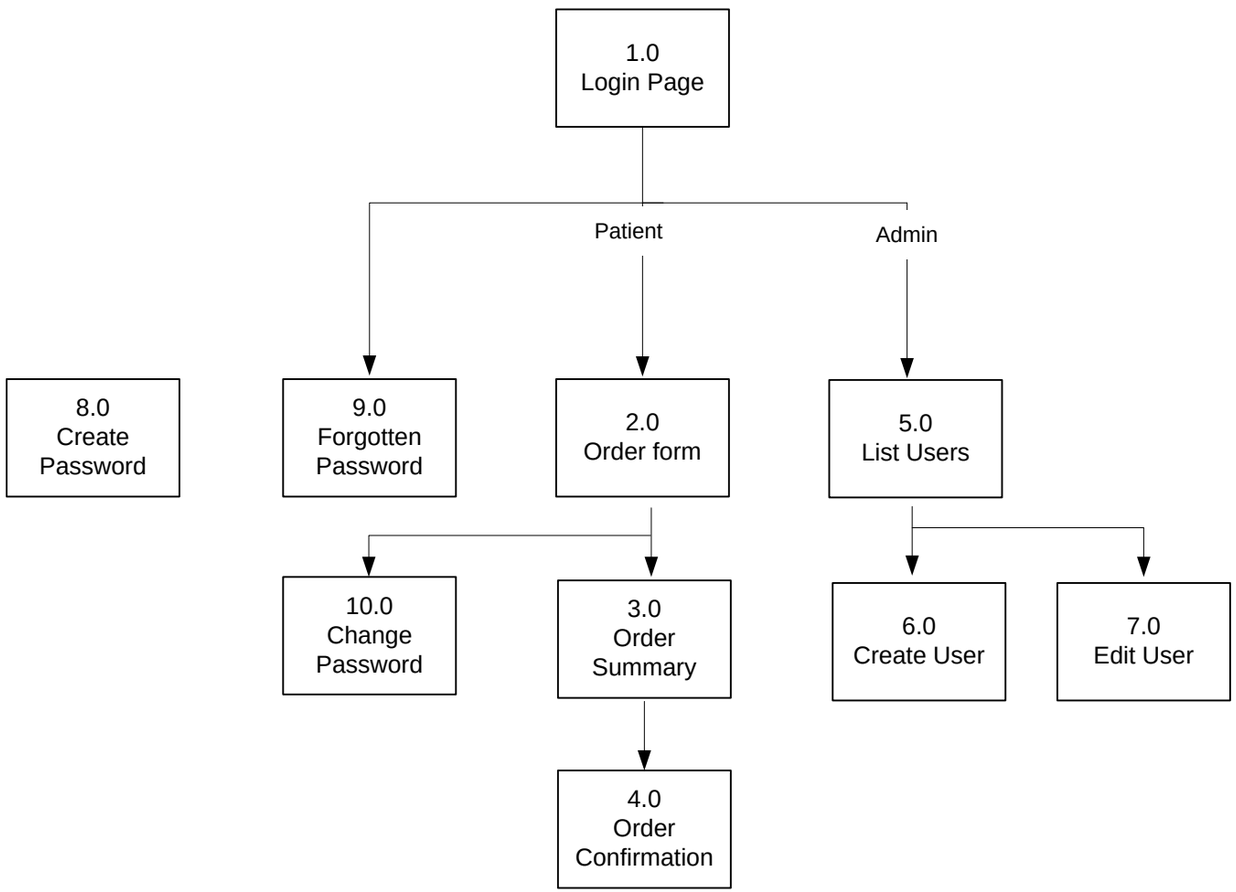
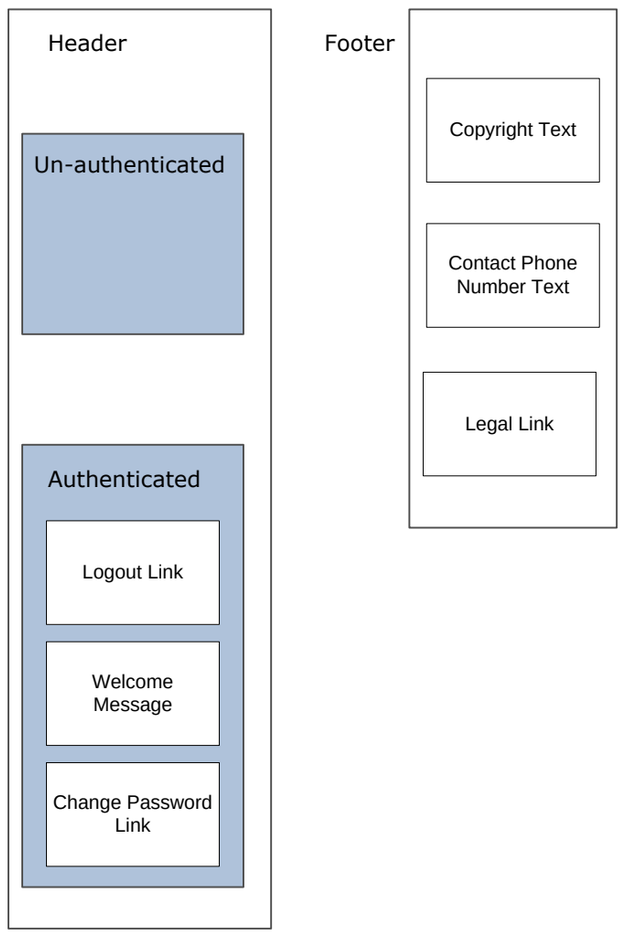
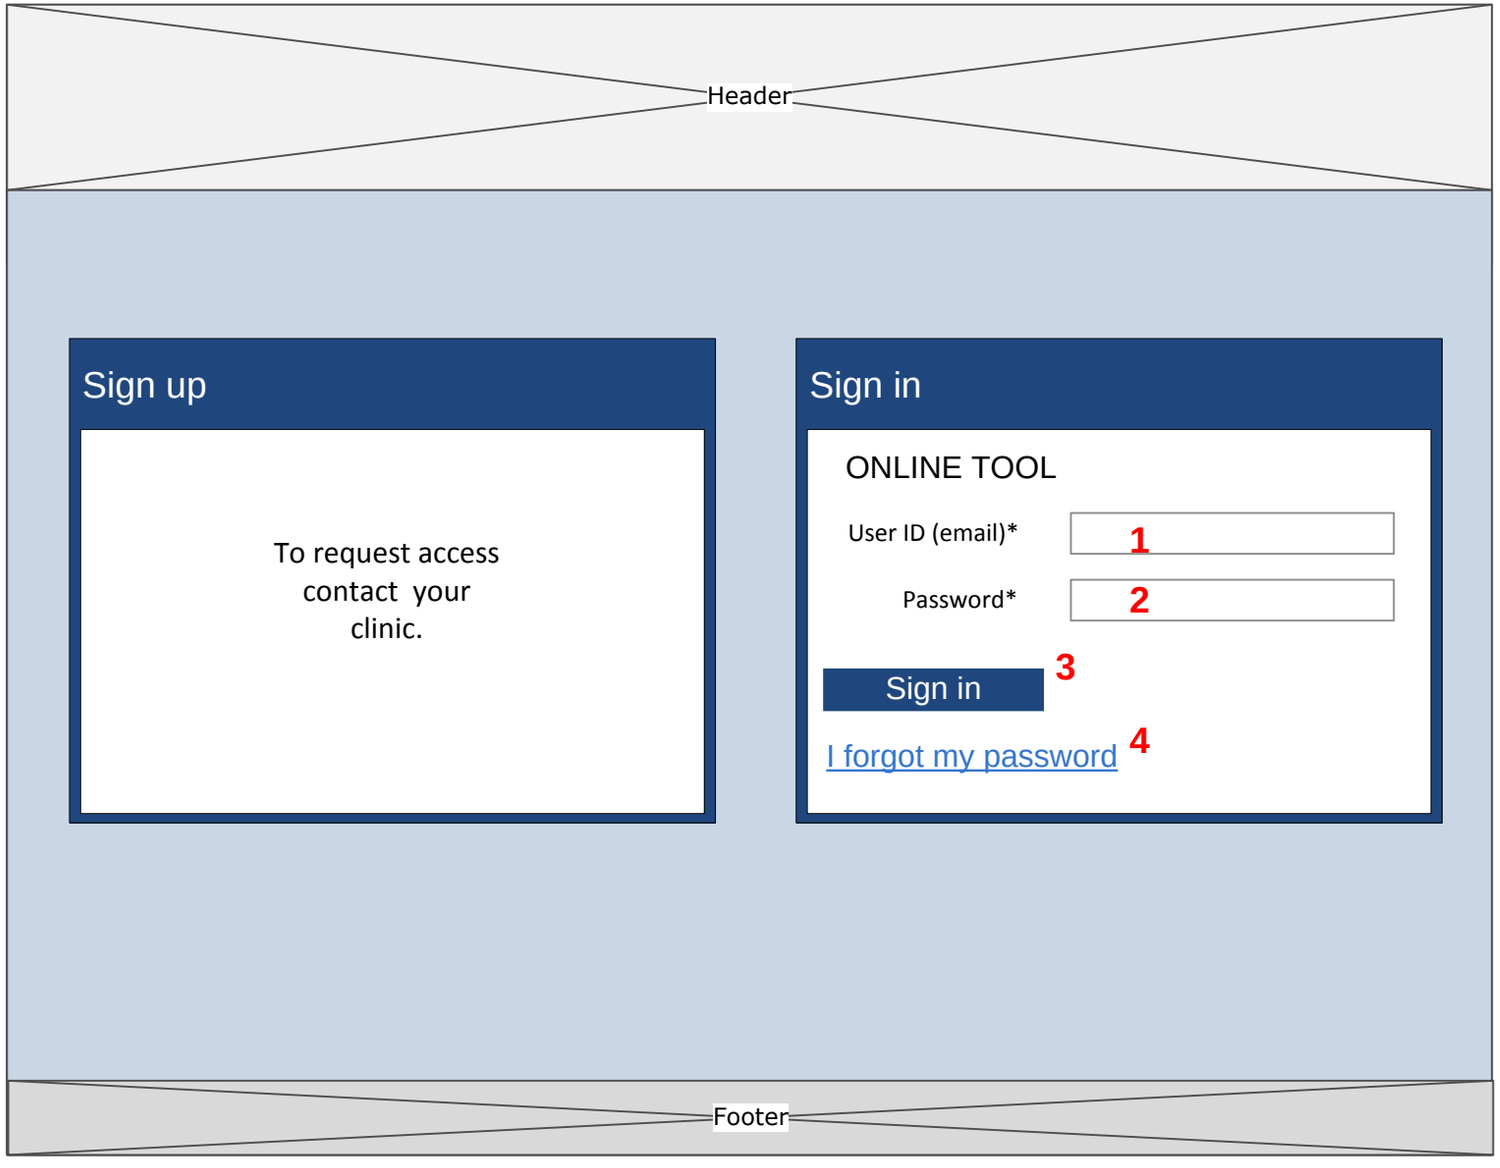
Baxter Supply Chain App: A. Site Map





Baxter Supply Chain App: 1.0 Login Page



Notes:

Page content:
Main Sign in/landing page

Detailed interactions:

#	Element Name	Type	Event	Description
1	email	Input	N/A	User Id (email)
2	password	Input	N/A	User password
3	sing_in	Button	onClick	Signs in user
4	forgot_password	Text/Link	onClick	Leads to forgotten password page

Validation:

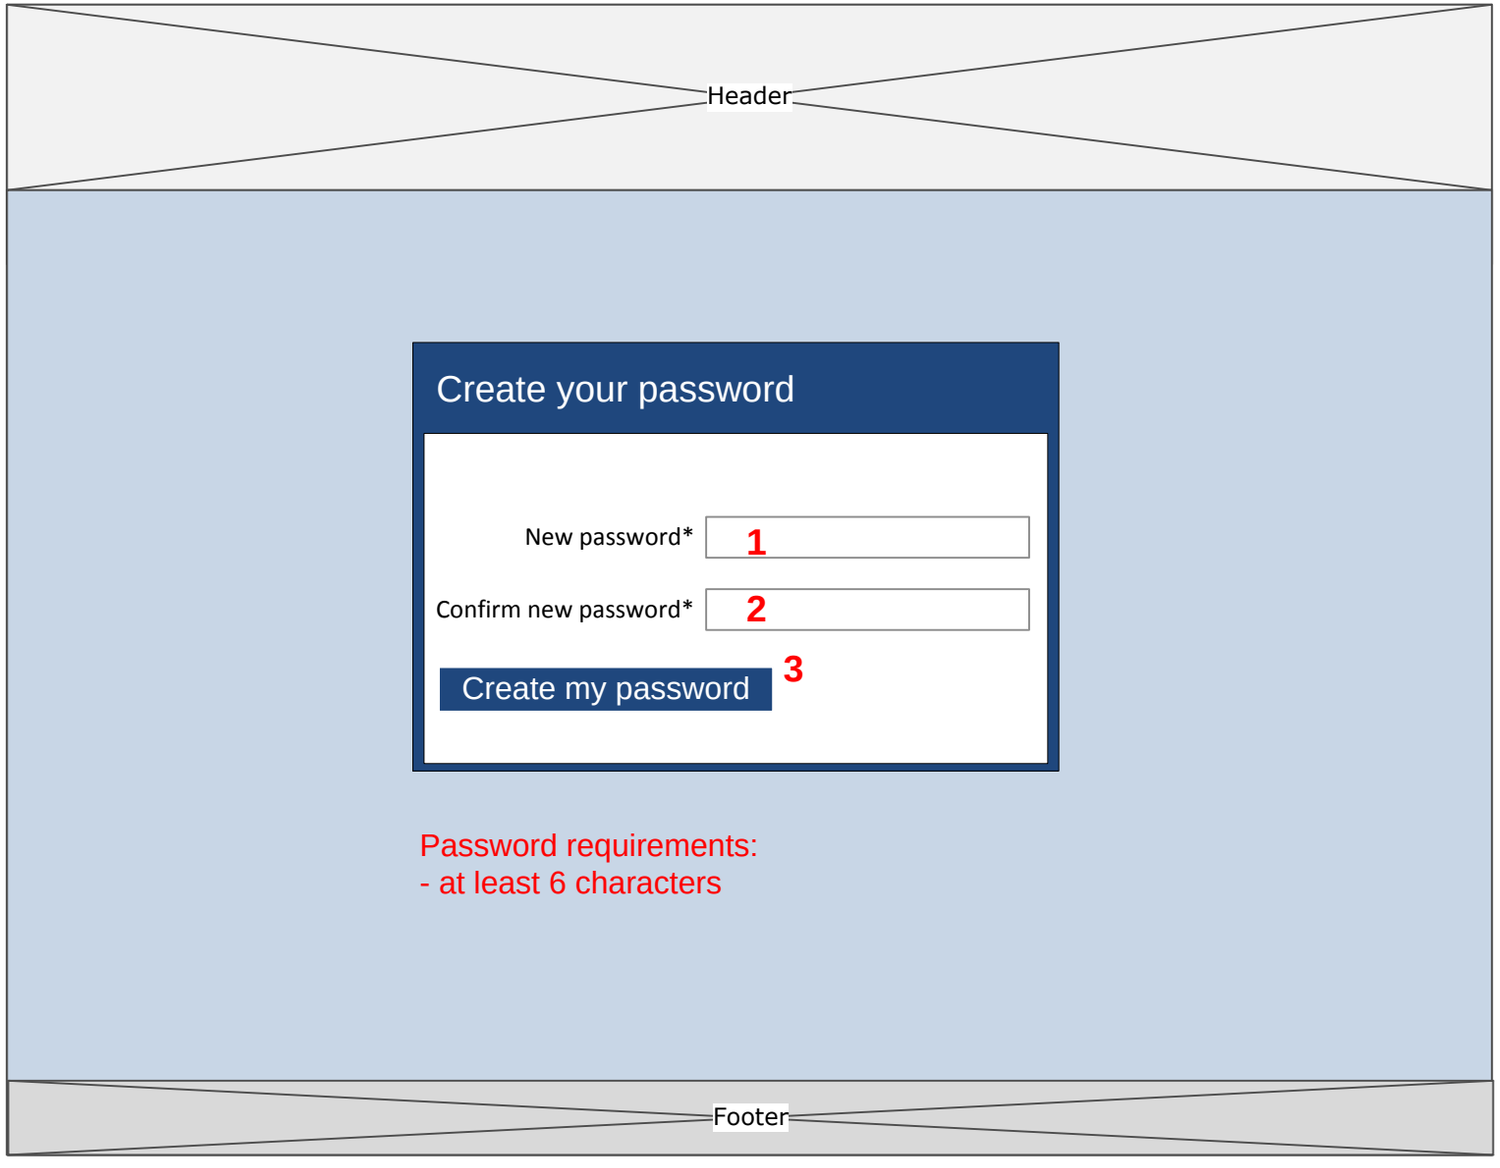
#	Element	Req	Validation	Message
1	email	Y	regular expression	You have typed an invalid email. Please try again.
2	password	Y	regular expression	You have typed an invalid password. Please try again.

Notes:
Password validation will reflect required password rules

Key:

Header | Body | Footer

Baxter Supply Chain App: 8.0 Create new password page



Notes:

Page content:
Allows new User to create new password

Detailed interactions:

#	Element Name	Type	Event	Description
1	password	Input	N/A	User password
2	confirm_password	Input	N/A	Confirm password field
3	create_password	Button	onClick	Changes user password

Validation:

#	Element	Req	Validation	Message
1	password	Y	non-blank string	Please enter a valid Password
2	confirm_password	Y	non-blank string	Please enter a valid Password

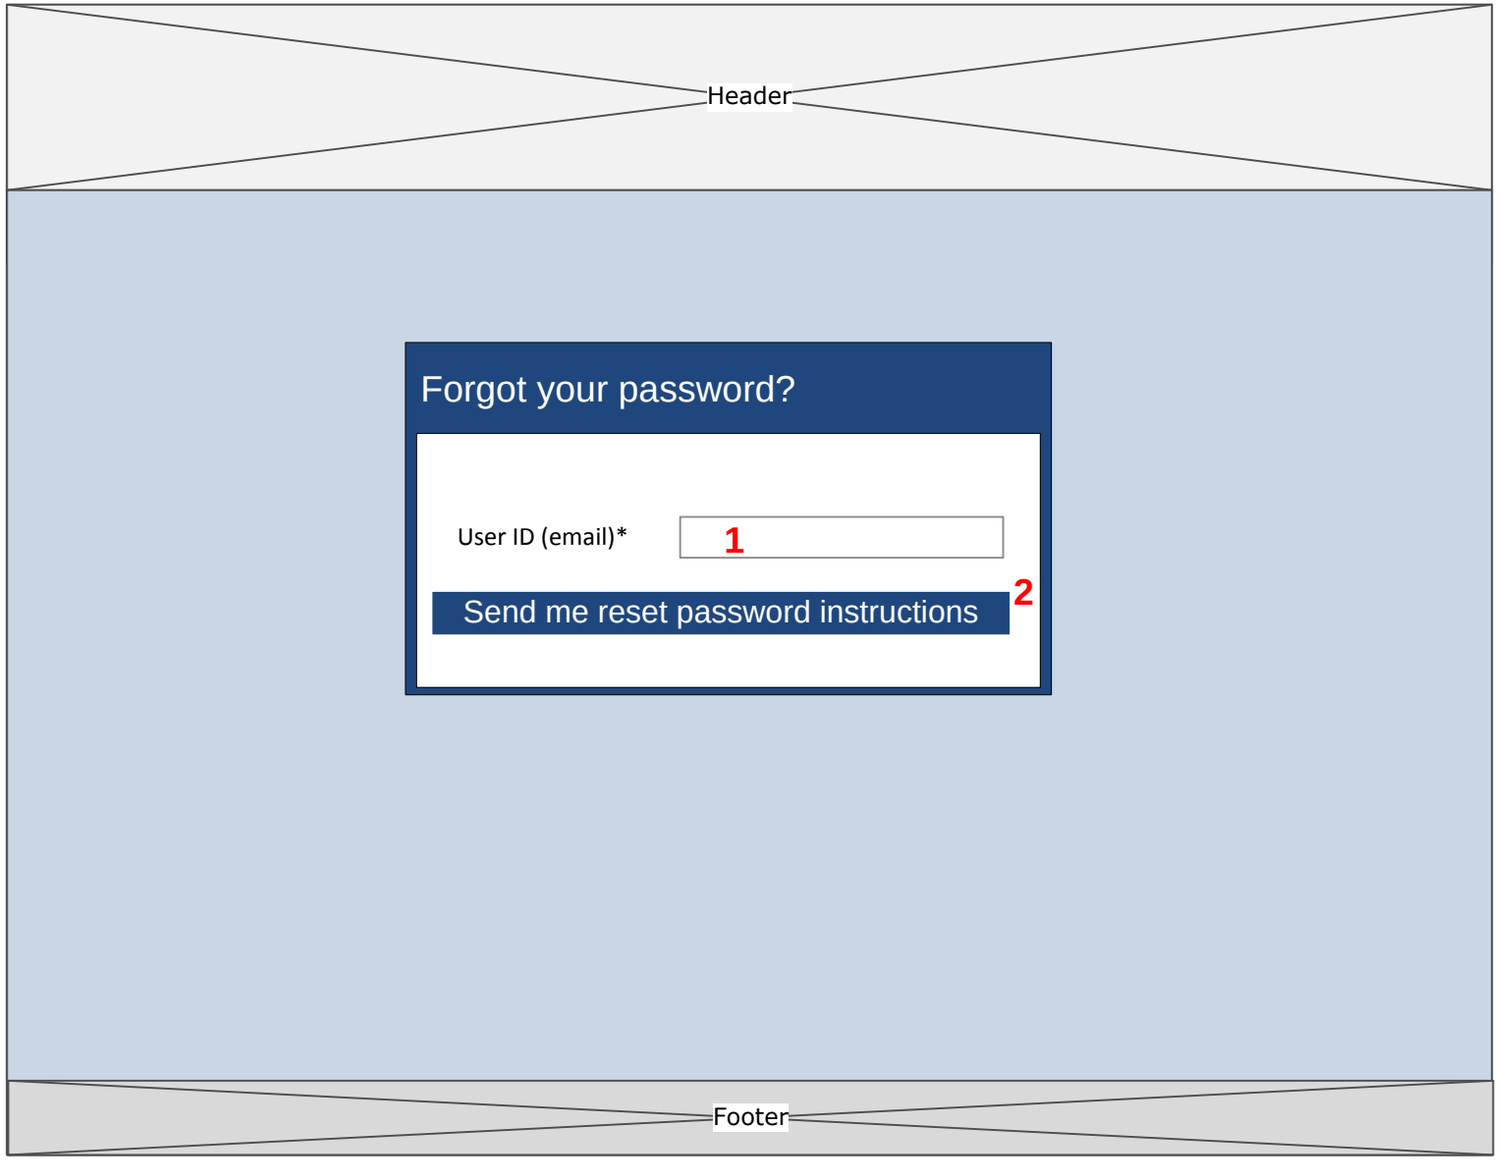
Notes:
Password validation will display two types of errors:
- password rules
- passwords do not match error

Changing password will automatically sign in the user

Key:

Header | Body | Footer

Baxter Supply Chain App: 9.0 Forgotten Password Page



Notes:

Page content:
Forgotten password page. Let user provide his email for authorization

Detailed interactions:

#	Element Name	Type	Event	Description
1	email	Input	N/A	User Id (email)
2	send_instructions	Button	onClick	Sends email to user with instructions how to change password, redirects to sign in page

Validation:

#	Element	Req	Validation	Message
1	email	Y	regular expression	Please enter a valid email

Notes:

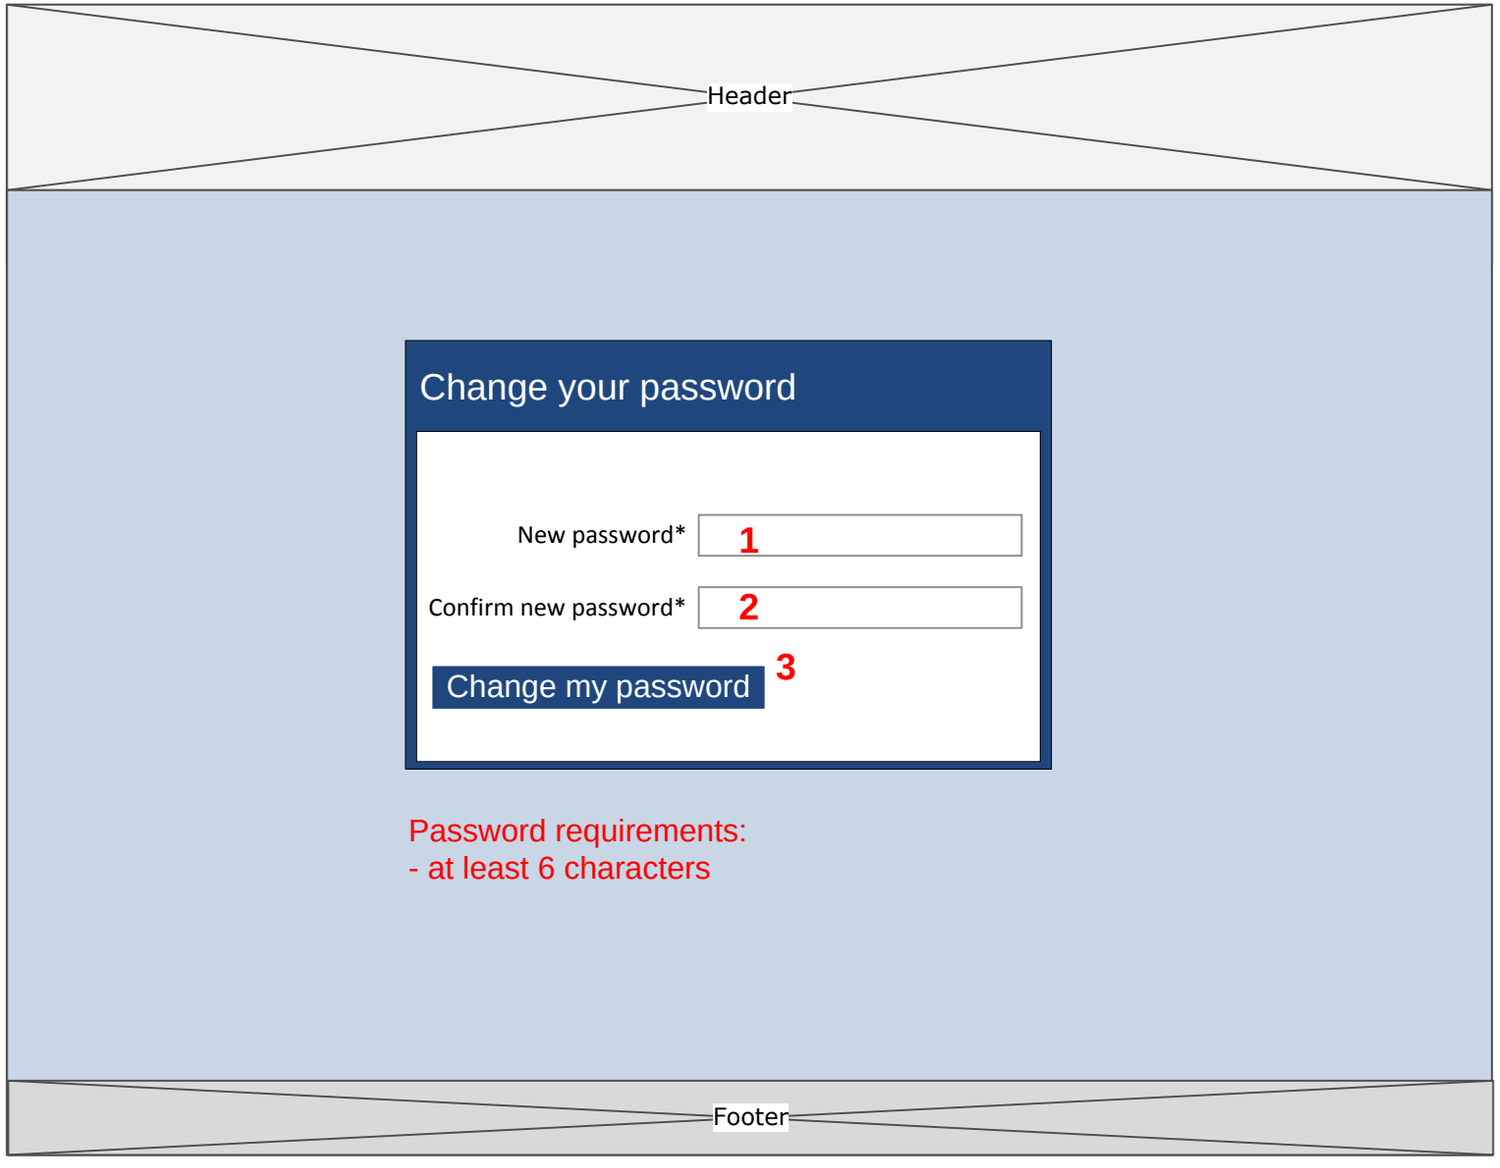
Email sent to the user will have a link to the page where user can create new password

Validation for email will check against existing email addresses and will show error in case email does not exist in database as valid user.

Key:

Header | Body | Footer

Baxter Supply Chain App: 10.0 Change Password page



Notes:

Page content:
Allows to provide new password

Detailed interactions:

#	Element Name	Type	Event	Description
1	password	Input	N/A	User password
2	confirm_password	Input	N/A	Confirm password field
3	change_password	Button	onClick	Changes user password

Validation:

#	Element	Req	Validation	Message
1	password	Y	non-blank string	Please enter a valid Password
2	confirm_password	Y	non-blank string	Please enter a valid Password

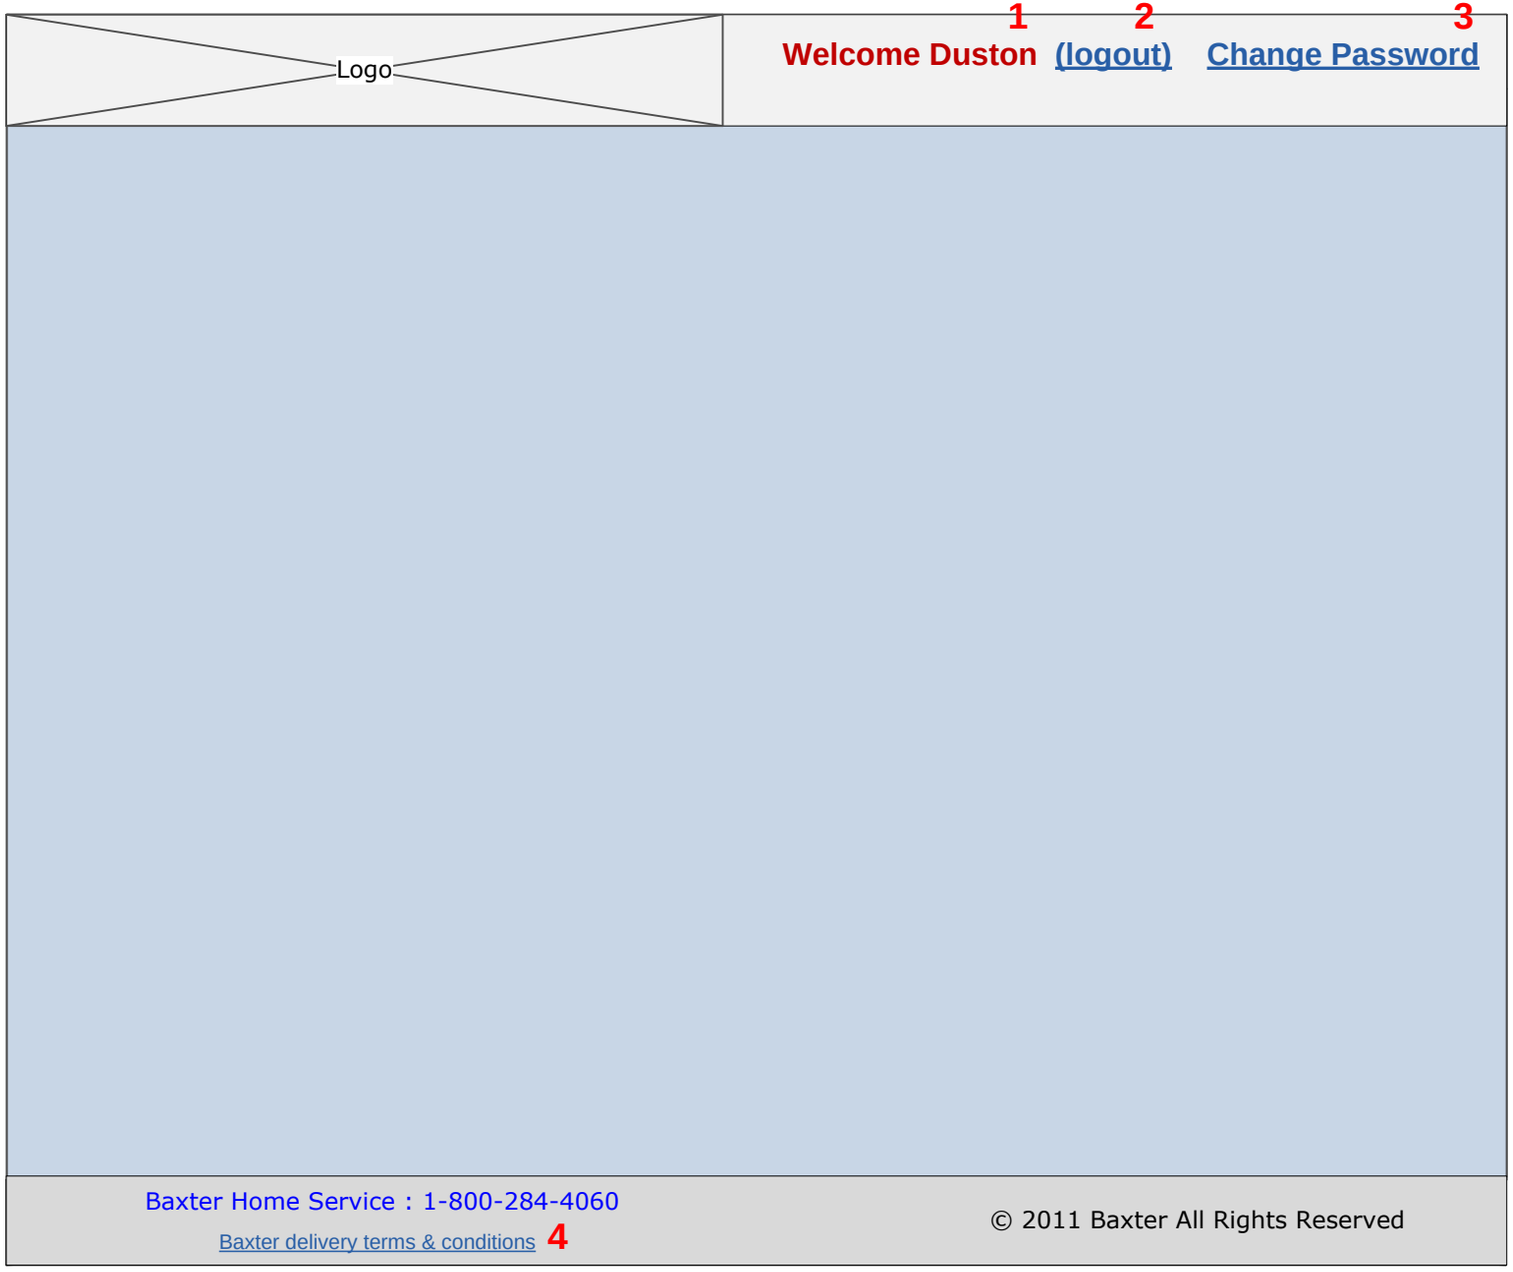
Notes:
Password validation will display two types of errors:
- password rules
- passwords do not match error

Changing password will automatically sign in the user

Key:

Header | Body | Footer

Baxter Supply Chain App 1.1 Header sign in / footer



Notes:

Page content:
Represents header after administrator sign in

Detailed interactions:

#	Element Name	Type	Event	Description
1	welcome_msg	Text	N/A	Displays a welcome message to the user.
2	logout	Text/Link	OnClick	Logs user out
3	change_password	Text/Link	OnClick	Leads user to password change page
4	policy_link	Text/Link	OnClick	Opens policy page in new window or tab

1.2 Privacy Policy - Baxter delivery terms & conditions

Privacy Policy

Introduction

Welcome to Baxter Healthcare Homecare Services program. For purposes of the Policy, references to "we," "our," and "us" mean Baxter.

Homecare Services provides a wide range of information to our patients, including product order management, product delivery and healthcare information. We collect information from you, including personally identifiable information (your full name, e-mail address and so on) and nonpersonally identifiable information. This Privacy Policy ("Policy") is designed to tell you about our information collection practices– that is, the ways we collect information; what kinds of information we collect; why we collect information; how we use information we collect; with whom we share information we collect; how

…...

….

…..

…...

……

Changes to this Policy

We reserve the right to change this Policy at any time and in our sole discretion. If we do change the Policy, you will be notified of the new policy, and all information collected following the delivery of such changes will be subject to the new Policy. We want you to know, however, that before we use or disclose your previously collected personally identifiable information in a materially different manner from that to which you agreed, we will first secure your affirmative consent for such use or disclosure. Absent such consent, we will use your personally identifiable information in accordance with the Policy in effect at the time we collected the information. In the event that you do not consent to the terms and conditions of the new Policy, we will either continue to use your personally identifiable information in accordance with the Policy in effect at the time we collected the information, or remove your profile from our records.
